

Please do NOT weaken Wisconsin's Do Not Call List. If anything, I would like to see more restrictions on who can call not less. This call list has greatly reduced the number of solicitation calls we receive. If I have an interest in contacting any organization or business, I can locate that information via the internet or other means. I do not need the business or organization to call me. In fact, I am more likely to never contact any company or group who makes a solicitation call than one I contact freely.
